Bill,

Per my discussion with you this morning,
I am submitting the following information:

b6
b7C

Sgt. Kevin Alan Gantzer, the [redacted]

[redacted] and a member of
the 101st Airborne Division, was killed in the
recent plane crash in Newfoundland. Kevin was
en route home from a peacekeeping mission in the
Middle East that the 101st Airborne was responsible
for. Kevin was a good student and was to be dis-
charged this coming year with expectations of
returning to college fulfilling his life's ambi-
tions. He was an Arabic-speaking soldier and
had an exemplary military record to date. He
was well thought of by his superiors and his
peers.

95-271189-X

According to Kevin [redacted] in recent
discussions with me, Kevin had ambitions of working
for the FBI in his future years. As of this
date, Sgt. Kevin Gantzer's body has not been
identified, even though over half of the bodies
to date have been so identified.

Dear [Redacted]:

Ed Sharp has advised me that [Redacted] was among those killed in the plane crash in Newfoundland, and I wanted to extend my belated but sincere condolences on your great loss.

The citizens of this Nation will long remember the young men and women of the 101st Airborne who lost their lives when returning to us from a peacekeeping mission abroad. I understand Kevin was an ambitious young man, with plans of finishing his education and of eventually working for the FBI. You must be very proud of Kevin and of his outstanding service to his country. While there is little I can say to ease your sorrow, I wanted you to know that others are thinking of you and share your grief.

Sincerely,

Subject : REQUEST FOR THE IDENTIFICATION
DIVISION DISASTER SQUAD TO
PROCESS VICTIMS OF THE CRASH OF
ARROW AIRLINES FLIGHT 950JW,
GANDER, NEWFOUNDLAND, 12/12/85

o Airport Air Crash Gander New Foundland

PURPOSE: To advise of the results of the work of the FBI Disaster Squad at Dover Air Force Base (AFB), Dover, Delaware, from 12/16-21/85, and to recommend incentive awards for members of the Disaster Squad.

95-271189-X3
SYNOPSIS: On 12/12/85, the crash of a chartered Arrow Airlines flight at Gander, Newfoundland, resulted in the death of 248 members of the 101st Airborne Division and an airline flight crew of eight. The services of the FBI Disaster Squad were requested to assist in body identification to be performed at the Dover Mortuary facility. The Disaster Squad processed the remains of 255 bodies and 37 body parts from 12/16-20/85. Because the military records for these individuals were on the plane with them, few positive identifications could be made by means other than fingerprints. By the time the Disaster Squad left Dover AFB, they had made 110 positive identifications of bodies and one body part. The team returned to FBIHQ with all available fingerprint data with which to continue processing steps against our file, and expect to make additional identifications. A final report of this work will be submitted to the military in the next several weeks.

DETAILS: On 12/12/85, a chartered Arrow Airlines, DC 8, carrying 248 passengers and a crew of eight, crashed and exploded within three quarters of a mile from the end of the runway after taking off from Gander, Newfoundland. The passengers were American soldiers of the 101st Airborne Division who were part of the 11 nation multinational force and observers stationed at Sharm el Sheik in the Sinai. The flight by Arrow Air, a Miami-based airline, had taken off in Cairo, Egypt, refueled in Cologne, West Germany, and Gander, and was enroute to Fort Campbell, Kentucky.

Upon arrival at the Dover AFB Mortuary Control Center on 12/16/85, the Disaster Squad was advised that bodies were being flown in from Gander, Newfoundland, for processing at the Dover Mortuary starting with two flights carrying ten bodies each that day. The following day, 12/17/85, there would be four flights carrying 36 bodies each. On 12/18/85, there would be two flights carrying 30 bodies each, and one flight carrying 32 bodies. Arrangements had been made with all individuals participating in body identification, post-mortem examination and mortuary servicing of the bodies to process six bodies on the evening of 12/16/85 to test the system that had been devised. The FBI Disaster Squad participated in this test by processing six bodies for fingerprints and was able to identify five. The overall trial process did point out areas of confusion, and at a meeting in which the Disaster Squad was represented, suggestions were made for modifying and streamlining the overall processing system.

RE: REQUEST FOR THE IDENTIFICATION
DIVISION DISASTER SQUAD TO
PROCESS VICTIMS OF THE CRASH OF
ARROW AIRLINES FLIGHT 950JW,
GANDER, NEWFOUNDLAND, 12/12/85

The following day, 12/17/85, the FBI Disaster Squad participated in the body processing, but the system was very slow and bogged-down due to differences in processing rates among the various stations doing the work. Over a 12-hour period, only 38 bodies were processed by the Disaster Squad, although 24 bodies were identified, including that of the pilot of the aircraft. Again at a nightly meeting, discussions were held to try to work out problems that would allow greater numbers of bodies to be processed each day. There was a positive impact, in that the following day, 12/18/85, a total of 64 bodies were processed. On 12/19/85, a total of 82 bodies were processed. The remaining bodies were then processed on 12/20/85. In total, the Disaster Squad processed 255 bodies and 37 body parts. Of that number, 110 bodies and one body part were identified at the scene, and the Mortuary Control Center was advised of these identifications before the Disaster Squad departed.

Because of the record keeping system maintained by the Disaster Squad, it was possible to advise the Mortuary Control Center that there was one body missing. This was later verified through the military record keeping system. Additionally, because the medical records of the Unit were on the same aircraft, the military had recovered only 46 dental records that could be used in the identification work. As a result, by the time the Disaster Squad departed Dover, only six identifications had been made through dental records. This meant that the fingerprint identifications were going to be, by-in-large, the only positive identifications made at this disaster.

The Disaster Squad returned to FBI Headquarters after a brief final meeting on the morning of 12/21/85 with all available fingerprint data with which to continue to make identifications in the files of this Division. It is anticipated that a few additional identifications will be made as more detailed comparisons are undertaken by the Latent Examiners here at Headquarters.

The work of the Disaster Squad once again has demonstrated their effectiveness and efficiency in these types of situations and brought forth uncounted comments of praise and thanks from all of the people witnessing their operation at the

Dover Mortuary. The Disaster Squad was able to work with the remains of severely burned and dismembered bodies and effect positive identifications at the scene. Many of the bodies were forwarded from Gander, Newfoundland, with a notation by the Royal Canadian Mounted Police that no fingerprints could be obtained. However, the Disaster Squad was able to make fingerprint identifications on many of these bodies. Their work was a continued source of amazement to the other individuals working in the Mortuary. Of the total number of bodies processed, 76 had neither hands nor feet. It was reported to us that one segment of the airplane containing approximately 100 individuals had burned for more than 20 hours before the fire could be extinguished. The remains the Disaster Squad had to work with were extremely poor.

Final comparisons are being made in the Latent Fingerprint Section, utilizing the fingerprint and footprint data brought back from Dover AFB. It is anticipated that this work will require the next several weeks to complete. At that time, a final report will be prepared and forwarded to the Armed Forces Institute of Pathology. It is our understanding that the Dover Mortuary is beginning to release bodies to the next of kin based on the Disaster Squad's fingerprint identifications.

Memorandum from C. D. Neudorfer to MR. YORK
RE: REQUEST FOR THE IDENTIFICATION DIVISION
DISASTER SQUAD TO PROCESS VICTIMS OF THE
CRASH OF ARROW AIRLINES FLIGHT 950JW
GANDER, NEWFOUNDLAND, 12/12/85

ADDENDUM OF THE DEPUTY ASSISTANT DIRECTOR (OPERATIONS), IDENTIFICATION
DIVISION JFR:vlsv/ 1/10/86

The purpose of this addendum is to recommend that SA Charles D. Neudorfer, Automation and Research Section, Identification Division, also receive an incentive award for his leadership and other contributions to these identification efforts. This disaster resulted in the death of 248 members of the 101st Airborne Division and an airline flight crew of eight. The military records for these individuals were on board the aircraft, therefore, few positive identifications could be made by means other than fingerprint identification. As a result of the Squad's efforts, 110 bodies and one of the body parts were identified before the Squad departed Dover Air Force Base.

The professional and efficient manner in which the Disaster Squad went about and completed its gruesome task was largely attributable to the leadership afforded by Section Chief Charles D. Neudorfer. During the early stages of the identification effort, there was evidently a great deal of confusion. The processing examination system was very slow and bogged-down due to the different processing rates. Discussions were held to try to work out the problems that would increase the number of bodies to be processed each day. Because of Mr. Neudorfer's past experience in prior disaster efforts, he took the initiative to make suggestions for modifying and streamlining the overall identification processing system to all of the groups working on the bodies. As a result, the body processing procedure accelerated, thereby allowing the Disaster Squad to complete its processing efforts in a timely manner.

In addition to his leadership role, SA Neudorfer's performance in supervising and contributing to the work of the Disaster Squad clearly exceeded the norms of his job description, therefore, he is very deserving of monetary recognition for his outstanding performance.

RECOMMENDATION: That SA Charles D. Neudorfer, Automation and Research Section, Identification Division, be granted an appropriate incentive award for his exemplary performance in this disaster.

[REDACTED]
[REDACTED] WHO IS IN CHARGE OF

[REDACTED] OF THE CRASH SCENE AND [REDACTED] AND

U. S. ARMY MAJOR GENERAL JOHN CROSBY OF THE PENTAGON, WHO IS COORDINATING THE U. S. ARMY'S INTERESTS ON THE SCENE.

SITUATION AS IT EXISTED AT 8:00 AM LOCAL TIME (6:30 AM EST) DECEMBER 13, 1985, IS AS FOLLOWS:

CRASH SITE HAS BEEN [REDACTED] WITH ASSISTANCE FROM CANADIAN MILITARY PERSONNEL. APPROXIMATELY 140 BODIES HAVE BEEN RECOVERED. RECOVERY EFFORTS CONTINUING. MOST BODIES ARE BADLY BURNED, HOWEVER FBI IDENTIFICATION DIVISION EXPERT ON THE SCENE IS OF THE OPINION THAT A HIGH PERCENTAGE OF IDENTIFICATIONS COULD BE EFFECTED WITH THE BENEFIT OF KNOWN FINGERPRINT EXEMPLARS. LEGAT HAS OFFERED FULL COOPERATION AND ASSISTANCE OF FBI LABORATORY DIVISION AND IDENTIFICATION DIVISION, HOWEVER AT THIS POINT ALL OFFERS OF ASSISTANCE HAVE BEEN DECLINED. [REDACTED]

HAS ADVISED [REDACTED]
[REDACTED]
[REDACTED]

[REDACTED] HE HAS DECLINED OFFER OF ASSISTANCE OF FBI DISASTER TEAM. AS OF 10:00 AM LOCAL TIME, [REDACTED] HAS INSISTED

PAGE THREE OTT 32-66 UNCLAS E F T O

THAT BODIES MUST BE IDENTIFIED AT THE SCENE BEFORE THEY WILL BE RELEASED TO U. S. MILITARY AUTHORITIES FOR RETURN TO THE UNITED STATES. LEGAT HAS DISCUSSED THIS REQUIREMENT WITH MAJOR GENERAL JOHN CROSBY, U. S. ARMY, AND HAS ADVISED HIM OF THE AVAILABILITY OF OUR DISASTER TEAM SHOULD HE BE ABLE TO CONVINCE CANADIAN AUTHORITIES TO EXPEDITE THE IDENTIFICATION PROCESS. GENERAL CROSBY WAS MOST APPRECIATIVE OF THE OFFER.

AS OF 3:00 AM LOCAL TIME, DECEMBER 13, 1985, U. S. ARMY OPERATIONS CENTER, THE PENTAGON, WAS FURNISHING THE NAMES OF PERSONNEL ABOARD CAPTIONED FLIGHT DIRECTLY TO THE IDENTIFICATION DIVISION, FBIHQ, TO ENABLE US TO LOCATE FINGERPRINT RECORDS OF VICTIMS IN OUR CIVIL FILES. FBIHQ IS REQUESTED TO LOCATE THOSE RECORDS AS EXPEDITIOUSLY AS POSSIBLE AND PREPARE TO FURNISH THEM TO LEGAT AT GANDER, NEWFOUNDLAND, TO ASSIST IN THE IDENTIFICATION PROCESS. LEGAT WILL ADVISE IF A REQUEST IS EVENTUALLY MADE BY CANADIAN AUTHORITIES FOR ASSISTANCE OF OUR DISASTER TEAM.

AT 10:30 AM LOCAL TIME, DECEMBER 13, 1985, [REDACTED]

[REDACTED] URGENTLY REQUESTED THAT THE FBI LOCATE AND PROVIDE MEDICAL, DENTAL AND FINGERPRINT RECORDS OF THE EIGHT ARROW AIRLINES CREW MEMBERS ON CAPTIONED FLIGHT. FBIHQ IS REQUESTED TO IMMEDIATELY SET

OUT LEAD FOR ALEXANDRIA OR WFO TO CONTACT U. S. ARMY OPERATIONS CENTER, TELEPHONE (202) 697-0218, TO OBTAIN NAMES AND IDENTIFYING DATA REGARDING CREW MEMBERS. THEREAFTER, ENSURE LEADS ARE SET OUT TO OBTAIN THE REQUESTED RECORDS AND PROVIDE THEM TO LEGAT OTTAWA AT GANDER, NEWFOUNDLAND. IF NAMES OF CREW MEMBERS ARE NOT AVAILABLE THROUGH ARMY OPERATIONS CENTER, LEADS SHOULD BE SET OUT TO LOCATE ARROW AIRLINES HEADQUARTERS IN FLORIDA AND CONDUCT THE PREVIOUSLY REQUESTED INVESTIGATION.

AT THIS TIME NO INVESTIGATION HAS BEEN CONDUCTED CONCERNING THE CAUSE OF THE CRASH. CANADIAN AUTHORITIES ARE NOT SPECULATING ON THE CAUSE, HOWEVER THEY STRESS THAT CIRCUMSTANCES DO NOT STRONGLY SUGGEST THAT A TERRORIST ACT HAS OCCURRED.

LEGAT IS MAINTAINING CONTACT WITH CANADIAN AUTHORITIES, AS WELL AS MAJOR GENERAL CROSBY AND U. S. NATIONAL TRANSPORTATION SAFETY BOARD AND FEDERAL AVIATION ADMINISTRATION AUTHORITIES AT THE SCENE. PERTINENT DEVELOPMENTS WILL BE PROVIDED TO FBIHQ BY TELEPHONE. FBI PERSONNEL WILL REMAIN AT GANDER AT LEAST THROUGH SATURDAY, DECEMBER 14, 1985, IN ORDER TO ASSESS THE SITUATION AND PROVIDE WHATEVER ADVICE OR ASSISTANCE THE CANADIANS MAY DESIRE.

LEGAT WILL BE IN PERIODIC TELEPHONE CONTACT WITH FBIHQ AND HIS OFFICE IN OTTAWA.
